This list summarizes those practices and procedures, which have been updated so that they are adequate to ensure compliance with the Commission’s CPNI rules.

Safeguarding against pretexting

- The Company takes reasonable measures to discover and protect against attempts to gain unauthorized access to CPNI, including the authentication of customers prior to disclosing CPNI based on customer-initiated contacts. The Company is committed to notify the FCC of any novel or new methods of pretexting it discovers and of any actions it takes against pretexters and data brokers.

Training and discipline

- The Company trains its supervisory and non-supervisory personnel in an effort to ensure that its employees, in accordance with FCC regulations: (a) understand what CPNI is, (b) join in and carry-out the Company’s obligation to protect CPNI, (c) understand when they are and when they are not authorized to use or disclose CPNI, (d) obtain customers’ informed consent as required with respect to its use for marketing purposes, and (e) keep records regarding receipt of such consent, customer complaints regarding CPNI and the use of CPNI for marketing campaigns.
- The Company’s employees are required to review Company’s CPNI practices and procedures set forth in training materials, CPNI policy, etc. and to acknowledge their comprehension thereof.

Customer approval and informed consent

- The Company has implemented a system to obtain approval and informed consent from its customers prior to the use of CPNI for marketing purposes. This system also allows for the status of a customer's CPNI approval to be clearly established prior to the use of CPNI.
 - Prior to any solicitation for customer approval, the Company notifies customers of their right to restrict the use of, disclosure of, and access to their CPNI.
